

Explore The Decontamination Benefits Sanondaf Offers To Lampadina Group Clients

What We Do?

Our hydrogen peroxide vapour treatments (HPV) have been clinically tested. We disinfect to 6 log kill in a highly efficient, effective manner. We have excellent environmental credentials as we produce no waste and there is no need to rinse after application. Our treatment process can have rooms and equipment back in use within one hour.

Who We Are?

Sanondaf is a leading provider of specialist disinfection and decontamination services, all across the UK trusted by esteemed institutions such as Research laboratories, Dental Laboratories, Veterinary Hospitals, Pharmaceutical Manufacturers & the NHS.
